FOR IMMEDIATE RELEASE

27th October 2009

PayX and PaymentsWorld create the world's largest dedicated BASE24 customer delivery services company

PayX, a global leading Payments Knowledge Provider™, and PaymentsWorld, a partnership involving the world's highest calibre BASE24 consultants, combine to deliver BASE24 customers with compelling specialist services to maintain effectiveness today, and thrive in the future.

PayX has taken its established BASE24 and BASE24-eps service lines of business to a new level. PaymentsWorld combines the strength of the finest high quality BASE24 consultants, including 200+ from PayX, with refined operating business best practices, into an exclusive long term dedicated delivery partnership. PayX will continue as the single marketplace brand. PaymentsWorld is the committed delivery team, solely providing world class BASE24 services to comfortably sustain change over the coming intensive years.

PayX has provided to Banks and Processors worldwide for over 12 years with structured service offerings such as PayX365™ and PayX-DPE™, on a yearly or project basis, to uphold and future proof card businesses. Packaged BASE24 services cover the whole life cycle from business case through to customization, compliance, support and maintenance, through to infrastructure and platform migrations. Customer delivery is, as desired, through the unique combination of services, individual or teams, performed on the client site, off-shore or any combination to meet the needs of any PayX BASE24 customer internationally.

PayX, with this formidable PaymentsWorld dedicated BASE24 delivery capability, significantly enhances the already trusted brand and track record while complementing PayX's full range of services in the Card Payments Industry from Issuing to Acquiring, Banking to Processing. PayX customers have enjoyed reliable service delivery for over 12 years. PayX works with its international top tier customer base to deliver high quality, low risk, consistent year on year services that they can comfortably rely upon for the future.
